

# Josiah DuBose Full Stack Software Engineer

(828) 216-6019 [josiahdubose@icloud.com](mailto:josiahdubose@icloud.com) <https://github.com/Josiah-DuBose>

## Experience

### Aerotek: Full Stack Software Engineer - contractor for **Cisco**.

*January 2019 - Present, Durham, NC*

#### Stack: Node, Express, Angular 7, MongoDB, Docker, Kubernetes, ES

- Solo full stack engineer for intellectual capital tools with thousands of users and large data sets.
- Write services to synchronize complex data structures across multiple platforms.
- Build, maintain, and scale RESTful APIs that are consumed by multiple external clients.
- Migrate legacy AngularJS into Angular 7.
- Three week sprints, bi-weekly scrum meetings.
- Perform interviews and screenings, conduct code reviews, and contribute to sprint planning.
- Learn new languages and frameworks quickly in order to take on new projects.
- Own every line in the code base, consistently looking for ways to improve the applications.
- Consistently learning new languages and frameworks in side projects to grow as an engineer.

### Apex Systems: Senior Full Stack Engineer and pod leader - contractor for **AT&T**.

*February 2017 - January 2019, Durham, NC*

#### Stack: Perl, JavaScript, jQuery, Ember, Bootstrap, MySQL

- Develop and maintain a highly visible suite of tools with thousands of users.
- Interview new candidates, perform QA's, and conduct code reviews.
- Build and maintain RESTful APIs.
- Migrate legacy jQuery/JS front ends into Ember framework.
- Demonstrated ability to pick up new languages and frameworks quickly.
- Monthly release cycle, continuously delivering solutions tailored to the customer's needs.
- Consistently complete tickets in less than the allotted time.
- Mentor and train incoming junior and standard developers.
- Constantly taking on new projects to continue progressing as a n engineer.

### The Iron Yard: Full Stack Engineering Student

*October 2016 - January 2017, Durham, NC*

#### Stack: Python, Django, JavaScript, Handlebars, Bootstrap, Postgres SQL

- Completed over twenty projects, the majority of which were full stack web apps.
- Team lead, project concept creator, and solo full stack developer for the final project.
- Acquired and applied new skills on a daily basis, daily code reviews/scrum meetings.
- Dedicated eighty hours/week to the program in order to learn as much as possible.
- Contributed to multiple team projects utilizing Github as version control.

## Education

### Iron Yard: Full Stack engineering boot camp with Python, Django, and JavaScript

*October 2016 - January 2017, Durham, NC*

### Wake Tech: Python and Java Software Development

*August 2015 - May 2016, Raleigh, NC*

### Motorcycle Mechanics Institute: Motorcycle Tech, Suzuki, and Yamaha Certifications

*June 2012 - August 2013, Orlando, FL*

## Skills

Node, Express, Python, Django, Perl, javaScript, Angular, Ember, React, jQuery, Handlebars, REST APIs, HTML, CSS, Bootstrap, MongoDB, SQL, Git, Docker, Kubernetes, ElasticSearch
