Junior software developer

Skills

Python, Django, Django Rest Framework
JavaScript, JQuery, Rest APIs, HTML, CSS, Handlebars
PostgreSQL, Postico, Git/GitHub, Postman, Agile development

Experience

The Iron Yard: Back end development student

October 2016 - January 2017, Durham, NC

- Team lead, project concept creator, and backend/JavaScript developer currently working with two UI/UX developers to create a full stack, web app for our final project. We will have an MVP to show by January 19th.
- Completed over twenty projects, several of which were full stack web apps.
- Acquired and applied new skills on a daily basis.
- Maintained the school's high standards of professionalism and craftsmanship in a fast paced, demanding environment.
- Contributed to several multi-developer projects utilizing Github as version control.

Combustion Cycles: Lead Mechanic

August 2013 - October 2016, Durham, NC Contact: Dave Jansen - (919) 688-5009

- Managed workflow through shop with the goal of meeting customer's requests while also managing their expectations.
- Performed repairs within acceptable time frames and customer's budget constraints.
- Communicated highly technical information in a manner that could be understood by customers and service writers.
- Trained incoming techs.

Maxine's on Shine: Restaurant Manager

March 2012- August 2013, Orlando, FL Contact: Kirt Earhart - (407) 674-6841

- Oversaw front and back of house operations.
- Worked shifts as bartender, server, and lead cook.
- Created daily specials, for both food and drink.
- Maintained customer satisfaction in fast paced, high pressure environment.

Education

Iron Yard: **Back End Engineering with Python/Django/JavaScript**

October 2016 - January 2017, Durham, NC

- 12-week backend focused, immersive course.
- Very fast paced environment with new concepts to learn and execute daily.
- Full stack, web app development with focus in Python, Django, JavaScript, HTML, and CSS.
- Relational Database Design with PostgreSQL and Postico.
- Restful API calls utilizing Handlebars to format and display data.
- Group projects employing Github for version control.
- Agile development concepts: daily stand up meetings, trello boards, code reviews, sprints.

Wake Tech: **Software Courses**

August 2015 - May 2016

Intro to Programming Logic: Python
- Fundamental logic and computer science concepts.
- Basic command line programs.
- Classes, intro to object oriented programming.
- Weekly projects to practice concepts covered in class.
- PyCharm.

Java Programming
- Intermediate programming course focused on object oriented design.
- Project planning and design implementation.
- Intermediate logic and computer science concepts.
- Weekly projects to practice concepts covered in class.
- Eclipse.
- GUI interface construction.

Motorcycle Mechanics Institute: **Motorcycle Tech, Suzuki, and Yamaha Certifications**

June 2012 - August 2013, Orlando, FL

- Leading trade school for motorcycle mechanic training.
- Gold certified by Suzuki and Yamaha.
- Achieved multiple accolades and awards during enrollment.
- Graduated at the top of the class with an accommodation for outstanding performance.
