Experience

Aerotek: Full Stack Software Engineer - contractor for Cisco.
January 2019 - Present, Durham, NC
Stack: MongoDB, Node, Express, Angular 7, with Kubernetes container management.
  • Solo, full stack developer for high traffic enterprise tool
  • Write services to synchronize complex data structures over multiple tools.
  • Monthly release cycles, bi-weekly scrum meetings.
  • Take ownership of the project and leave everything better then I found it.
  • Build and maintain RESTful APIs that are consumed by multiple exterior clients.
  • Migrate legacy AngularJS into Angular 7.
  • Rapid new language and framework assimilation leading to solo developer status on project.
  • Continuously learning new languages and frameworks to increase my value as a developer.

Apex Systems: Full Stack Senior Web Developer I(pod leader) - contractor for AT&T.
February 2017 - Present, Durham, NC
Stack: Perl, Mojolicious, JavaScript, Ember, and MySQL
  • Develop and maintain a highly visible suite of tools with thousands of users around the world.
  • Interview new candidates, perform QAs, and conduct code reviews.
  • Build and maintain RESTful APIs.
  • Migrate legacy jQuery/JS front ends into Ember framework.
  • Demonstrated ability to pick up new languages and frameworks quickly.
  • Monthly release cycle, continuously delivering solutions tailored to the customer's needs.
  • Consistently complete tickets in less than the allotted time.
  • Mentor and train incoming junior and standard developers.
  • Constantly taking on new projects to continue learning and progressing as a developer.

The Iron Yard: **Full Stack Web Development Student**
October 2016 - January 2017, Durham, NC ***Final project: BikeMD***
  • Completed over twenty projects, the majority of which were full stack web apps.
  • Team lead, project concept creator, and solo full stack developer for the final project.
  • Acquired and applied new skills on a daily basis, daily code reviews/scrum meetings.
  • Dedicated over eighty hours per week to the program in order to lean as much as possible.
  • Contributed to multiple team projects utilizing Github as version control.

Education

Iron Yard: Full Stack engineering with Python/Django/JavaScript
October 2016 - January 2017, Durham, NC
- 12-week full-stack focused, immersive course.
- Fast paced environment with new concepts to learn and execute daily.
- Web application development with focus in Python, Django, JavaScript, HTML, and CSS.
- Relational Database Design with PostgreSQL and Postico.
- Restful API calls and construction
- Utilize Handlebars to format and display data for a dynamic and responsive front end.
- Group projects employing Github for version control.
- Agile development concepts: daily stand up meetings, trello boards, code reviews, sprints.

Wake Tech: Software courses
August 2015 - May 2016, Raleigh, NC

Intro to Programming Logic: Python
- Fundamental logic and computer science concepts.
- Basic command line programs.
- Intro to object oriented programming.
- Weekly projects to practice concepts covered in class.
- PyCharm.

Java Programming
- Intermediate programming course focused on object oriented design.
- Project planning and design implementation.
- Intermediate logic and computer science concepts.
- Weekly projects to practice concepts covered in class.
- Eclipse.
- GUI interface construction.

Motorcycle Mechanics Institute: Motorcycle Tech, Suzuki, and Yamaha Certifications
June 2012 - August 2013, Orlando, FL
- Leading trade school for motorcycle mechanic training.
- Gold certified by Suzuki and Yamaha.
- Achieved multiple accolades and awards during enrollment.
- Graduated at the top of the class with an accommodation for outstanding performance.
